Security

Paying at secure online websites is less prone to fraud than paying at a physical location or over the telephone. We are PCI-DSS certified (Payment Card Industry Data Security Standard), the industry standard for internet-based financial services transactions. All data is encrypted using SSL technology so that payment account numbers are never viewable in any part of the service.

Privacy Policy

Our privacy policy is to never share your information with third parties. The information you provide is used solely for the purposes of completing the transaction.

Errors

Each transaction undergoes verification processes to guard against fraud and weed out typing errors. If the account number is not recognized you will be immediately notified and the transaction will not be authorized.
