March 21, 2013

Dear Reavis High School Families and Staff:

There will be some renovation projects in progress this spring and summer at Reavis High School that will include the removal of asbestos containing flooring.

The asbestos abatement work is scheduled to be performed in the following phases:

Library and Guidance	April 1 - April 16
Kitchen and Cafeteria	April 24 - May 15
Art Department	May 28 - June 8
2nd Floor Classrooms	June 10 - June 22

Asbestos abatement work will be performed after 4:00 pm on school days.

Areas of the school affected by this project will be closed off and isolated during all asbestos abatement work. The sections of the school undergoing asbestos abatement will be clearly identified and no access will be allowed. Strict work procedures, cleaning and air quality standards will be followed at all times. All abated areas must pass air quality testing procedures before those areas are to be reoccupied.

The administration is working closely with our architects and contractors to create the least disruptive situation possible. The safety of all children and staff is an equally high priority at Reavis High School as we go through this renovation. If you have any questions concerning the renovation and new construction project, please feel free to contact me at school.

Sincerely,

Timothy J. Smith
Assistant Superintendent
For Facilities & Operations
